

AVITA Therapeutics Appoints Kathy McGee as Chief Operating Officer

December 1, 2020

VALENCIA, Calif, and MELBOURNE, Australia, Dec. 01, 2020 (GLOBE NEWSWIRE) -- AVITA Therapeutics, Inc. (NASDAQ: RCEL, ASX:AVH), a regenerative medicine company that is developing and commercializing a technology platform that enables point-of-care autologous skin restoration for multiple unmet needs, announced today the appointment of Kathy McGee as Chief Operating Officer, effective December 1, 2020.

"Kathy's extensive healthcare experience and industry insight are a welcome addition to AVITA's leadership team," said Dr. Mike Perry, AVITA Therapeutics' Chief Executive Officer. "In particular her broad operational experience within Regenerative Medicine will be critically important as we seek to bring our pipeline products through development and into the markets."

Ms. McGee joins AVITA with over 25 years of biopharmaceutical and life sciences experience, most recently serving as President of CnA Consulting Group, which focuses on providing specialized consulting services to the life sciences industry. Prior to CnA Consulting, Ms. McGee was the Vice President of West Coast Operations at Shire Pharmaceuticals Regenerative Medicine Division, formerly Advanced BioHealing, where she was a part of the leadership team responsible for manufacturing operations, strategic planning, capital expansion, and real estate. At Advanced BioHealing, Ms. McGee served as the Senior Vice President of Operations and General Manager, with responsibility for the company's manufacturing operations in La Jolla, CA. She has also held senior Operations leadership roles at Smith and Nephew and Advanced Tissue Sciences. She earned her Bachelor of Science in chemistry and mathematics from University College Galway Ireland, and holds a Master's degree in Business and Management from Webster University.

Authorized for release by the Chief Executive Officer of AVITA Therapeutics, Inc.

ABOUT AVITA THERAPEUTICS, INC.

AVITA Therapeutics is a regenerative medicine company with a technology platform positioned to address unmet medical needs in burns, chronic wounds, and aesthetics indications. AVITA Therapeutics' patented and proprietary collection and application technology provides innovative treatment solutions derived from the regenerative properties of a patient's own skin. The medical devices work by preparing a RES[®] REGENERATIVE EPIDERMAL SUSPENSION, an autologous suspension comprised of the patient's skin cells necessary to regenerate natural healthy epidermis. This autologous suspension is then sprayed onto the areas of the patient requiring treatment.

AVITA Therapeutics' first U.S. product, the RECELL[®] System, was approved by the U.S. Food and Drug Administration (FDA) in September 2018. The RECELL System is indicated for use in the treatment of acute thermal burns in patients 18 years and older. The RECELL System is used to prepare Spray-On Skin[™] Cells using a small amount of a patient's own skin, providing a new way to treat severe burns, while significantly reducing the amount of donor skin required. The RECELL System is designed to be used at the point of care alone or in combination with autografts depending on the depth of the burn injury. Compelling data from randomized, controlled clinical trials conducted at major U.S. burn centers and real-world use in more than 8,000 patients globally, reinforce that the RECELL System is a significant advancement over the current standard of care for burn patients and offers benefits in clinical outcomes and cost savings. Healthcare professionals should read the INSTRUCTIONS FOR USE - RECELL[®] Autologous Cell Harvesting Device (<https://recellsystem.com/>) for a full description of indications for use and important safety information including contraindications, warnings and precautions.

In international markets, our products are marketed under the RECELL System brand to promote skin healing in a wide range of applications including burns, chronic wounds and aesthetics. The RECELL System is TGA-registered in Australia and received CE-mark approval in Europe. To learn more, visit www.avitamedical.com.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This letter includes forward-looking statements. These forward-looking statements generally can be identified by the use of words such as "anticipate," "expect," "intend," "could," "may," "will," "believe," "estimate," "look forward," "forecast," "goal," "target," "project," "continue," "outlook," "guidance," "future," other words of similar meaning and the use of future dates. Forward-looking statements in this letter include, but are not limited to, statements concerning, among other things, our ongoing clinical trials and product development activities, regulatory approval of our products, the potential for future growth in our business, and our ability to achieve our key strategic, operational and financial goal. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Each forward-looking statement contained in this letter is subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statement. Applicable risks and uncertainties include, among others, the timing of regulatory approvals of our products; physician acceptance, endorsement, and use of our products; failure to achieve the anticipated benefits from approval of our products; the effect of regulatory actions; product liability claims; risks associated with international operations and expansion; and other business effects, including the effects of industry, economic or political conditions outside of the company's control. Investors should not place considerable reliance on the forward-looking statements contained in this letter. Investors are encouraged to read our publicly available filings for a discussion of these and other risks and uncertainties. The forward-looking statements in this letter speak only as of the date of this release, and we undertake no obligation to update or revise any of these statements.
